executive DIRECTOR'S welcome

*H*ello and welcome to the 2016 Pacific Miss Asian Alliance Beauty Pageant. I want to thank all of you for coming out and supporting our amazing pageant contestants and the Asian community. Our pageant has worked very hard to present this evening's event as an exciting and memorable experience for all attendees. We are extremely honored to present some of the most talented Asian women from all over the world.

In 2008 and 2010, we held our first and second Miss Chinese American Pageant, and since 2013 we reached out to Asian communities and had our first Pacific Miss Asian American Beauty Pageant. And today, we go further to embrace talented girls from all over the world! We created this pageant with five goals in mind. First, we want to promote the beauty and uniqueness of our Asian heritage, international cultural awareness, and community pride. Second, we aim to provide a platform where young Asian women could display their artistic skills, cultural pride, leadership, and family values in order to further advance themselves in global society. Next, we want to create an exciting and unforgettable experience for every contestant—regardless of whether she wins a title or an award.

In addition, we want to create a cultural bridge between our traditional Asian values and global society. Last but not least, we want to foster community development, cultural exchange, business and economic opportunity and tourism between the United States and Asian countries. I am pleased to report that we have met and exceeded all of these goals.

For all the great six years, I would like to take this opportunity to thank our many sponsors, advertisers and partners for their generous contributions and support. With their assistance, we are able to offer pageant winners scholarships to continue their education. I would also like to thank our pageant directors, honorary board of advisors, committee members, and staff for their love and support. These people are all a part of my extended family, and their hard work and dedication have made this pageant a success. Finally, I would like to express my sincerest appreciation and thanks to the families and friends of our 13 contestants for their unconditional support and encouragement. I want each of you to know that these women are the next leaders of our communities and are paving the way for future generations of Asians.

Focusing in the areas of Chinese classical and folk dance, she has starred in numerous productions in China and has been teaching for the past ten years.
